Hi All,

Here are the highlights from our Feb Meeting.

- 207 Melville - Construction is progressing well. They are currently working on handing the drywall. The dedication is tentatively planned for May.
- Home #3 - We don't have an address yet, but we will break ground on this home in the spring. We have already raised the \$100,000 to fund this house. I should have more details next month.
- The Habitat Gala is April 4th.
- The Baytown Restore is in need of donations of kitchen items.
- Habitat reported that they receive only limited funds from federal grants, so the budget reductions will not impact their programs.
- Attached are a couple of items you can use to promote Habitat in your church.

Let me know if you have any questions.

Mark
