Good Morning Kevin,

This past week a group of people met who are interested in exploring the possibility of launching a one-on-one tutoring program. This program for children (primarily elementary aged) would be designed to assist students who have been impacted by online studies this past year. There are children who thrived or at least were able to maintain their education and there are children who have fallen behind. Our plan would be to work with the school district - specifically teachers would recommend the students who could most benefit from tutoring.

I am attaching a draft/working document. As stated we would not plan to begin until late Fall 2021 or after the holidays in 2022.

We will need a 501c3 organization that can receive funds, both private and corporate donations, to work through and thought that EMP might be interested in learning more. We have checked with the Fairport Foundation as well but they are currently in a state of flux.

I know that the EMP Board meeting is coming up next week. Pat May will most likely be at that meeting and she is one of the people involved in exploring the possibility of this program – she will be able to fill you in on the details and answer questions.

Thanks for reading – have a great Memorial Day weekend!
Pam
